

## Job Description - Head of Mechanical Design

MGI Engineering Ltd is looking for a **Head of Mechanical Design** to join our highly skilled team to deliver cutting-edge solutions in the aerospace, automotive, motorsport and marine sectors. MGI Engineering is accelerating the creation of technologies towards a net carbon zero future.

Founded in 2003 by our CEO Mike Gascoyne, MGI Engineering has circa 20 full-time engineering staff based in Witney, Oxfordshire, delivering innovative technology solutions to wider mainstream and newly developing industry sectors. We are a very dynamic team with many exciting clients and projects. We pride ourselves on having a can-do attitude.

The technical team leverages its extensive experience in the F1 industry to deliver customised, highly innovative solutions to meet our client's specific requirements within different sectors. Our DNA is rooted in extensive, fast-paced R&D development, on-time and within-budget delivery, and reliance on a trusted international network of partners and specialists. We believe in sustainability, mobility and reusable energy technology across all our supported sectors.

**Reporting to CEO**, this position will involve:

- Design and CAD modelling of mechanical components
- Hand calculations to support designs
- Analysing and interpreting customer requirements
- Preparation of Detailed designs and drawings for manufacture including tolerances
- Interaction with Aerodynamic and Stress departments to ensure full compliance with concept intent and structural integrity.
- Continuous development of designs and process to keep best practices
- Comply with company quality standards AS 9100D (training will be provided)
- Lead and mentor junior designers to ensure company standards are achieved
- Supporting the Test team as required to explore and validate technical solutions

Successful candidates will be expected to:

- Educated to Minimum HND level /Mechanical Engineering or equivalent
- At least 10 years of experience working in a relevant industrial environment
- A sound knowledge of computer aided design preferably Siemens NX
- Experience of CATIA V5/V6/3DX would be beneficial
- Comfortable performing simple hand calculations to support designs
- Understanding of manufacturing techniques of mechanical components and tooling
- Ability to apply your knowledge to solve fundamental engineering solutions
- Ability to communicate complex ideas so that they are understood by different audiences
- The ability to manage multiple, complex tasks
- Pragmatic and logical
- Attention to detail and the discipline to self-check results
- The organisation and drive to meet deadlines
- Fluent in spoken and written English language
- Must have the right to work in the UK

Benefits:

- Competitive salary
- 25 days holiday + bank holidays
- Flexible benefits scheme
- Free Breakfast
- Birthday day off
- Flexible working hours

Contract hours:

Full time, fixed term

Primary location:

Witney, Oxfordshire, onsite

Salary:

Competitive
